

# WE HELP OUR PARTNERS GROW.

**We care about our trusted partners across the nation because your success is our success.**

We care about our trusted partners across the nation because your success is our success.

Clearfly's service offerings converge local and long distance, e-Fax, text messaging, and many other features using the latest technology in SIP trunking.

Our unified billing platform offers a branded, single-invoice solution for partners to boost on-time payments. We handle accounts receivable, tax assessment and remittance, and send direct payouts to your bank account.

The Clearfly Portal provides partners with more control over customer accounts than any carrier in the industry. You can access account data and review order, project and network status. Access real-time switch information to adjust trunk quantity, call forwarding, call blocking and registrations. Add or remove lines and numbers and modify services on the fly to scale with seasonal needs and business growth.

Clearfly utilizes industry-leading hardware and service providers in all facets of its network to ensure the high levels of quality and reliability that your customers demand.

If issues do arise, Clearfly's experienced service and support departments are here 24/7 to work cooperatively to resolve issues, not simply pass them on to others.

## CLEARFLY FEATURES INCLUDE:

**WE CARE ABOUT YOU  
AND YOUR CUSTOMERS.**

# CLEARFLY: THE CLEAR CHOICE

Since 2008, we've been helping partners grow revenue. We offer recurring commissions and assistance in lead creation, preparing quotes, and training.

We work with partners to sign up and onboard customers to a world-class network full of features that saves them time and money.

## **ACCELERATED COMMISSIONS**

Earn additional commissions based on how you price Clearfly services.

## **FLEXIBLE PRICING**

Operate in a price range versus a fixed cost that most carriers offer.

## **BURSTABLE TRUNKS**

Provide businesses with two standby trunks that will activate only if all trunks are busy.

## **PERSONALIZED FORWARDING**

Directly forwards to the company's main number or a personal number.

## **CALLER ID NAME CHANGE**

Change name displayed when making a call – not only on a specific number but all numbers.

## **INTERNATIONAL TOLL RESTRICTION TIERS**

Minimize exposure to fraudulent activity and unnecessary costs from international toll fraud.

## **CUSTOMER PROTECTION ALARMS**

Offer a variety of threshold alarms to help prevent problems and unnecessary costs.

## **INNOVATIONS & ENHANCEMENTS**

Innovate as partners and receive quick turnaround on requests whenever possible, unlike large carriers.

## **PRIVATELY OWNED & FINANCIALLY SOUND**

In a telecom world full of disruption, we build relationships with partners for the long term.

PARTNER WITH CLEARFLY. WE'RE READY TO WORK FOR YOU.
