

YOU DESERVE BETTER PHONE SERVICE.

THAT'S WHERE CLEARFLY COMES IN!

We care about our customers, large and small, because your business success is our success.

Clearfly's service offerings converge local and long distance, e-Fax, text messaging, and many other features using the latest technology in SIP trunking.

Customers can receive one monthly invoice for all services through our unified billing platform. You can review payment status and manage billing instructions in our powerful Clearfly Portal.

Add or remove lines and numbers and modify services on the fly to scale with seasonal needs and business growth.

Through our Clearfly Portal, customers can access real-time and historic calling records, call analytics and incident reports. You can also adjust forwarding from anywhere, at any time.

Clearfly utilizes industry-leading hardware and service providers in all facets of its network to ensure the high levels of quality and reliability that your customers demand.

If issues do arise, Clearfly's experienced service and support departments are here 24/7 to work cooperatively to resolve issues, not simply pass them on to others.

CLEARFLY: THE CLEAR CHOICE

Since 2008, we've been meeting the needs of customers with innovative SIP trunking solutions. They turn to Clearfly and our trusted partners across the nation to deliver a seamless conversion to a world-class network that saves them money.

ON-THE-FLY ADJUSTMENTS

Make immediate changes to SIP trunk count, up or down, to meet customer needs.

BURSTABLE TRUNKS

Access to two standby trunks that will become active only if current trunks are busy.

SMS/MMS MESSAGING

Receive and send texts, which have all but replaced voicemail to assure that opportunities are not missed.

PERSONALIZED FORWARDING

Control how callers reach you, whether through the company's main number or a personal number.

CALLER ID NAME CHANGE

Change name displayed when making a call – not only on a specific number but all numbers.

INTERNATIONAL TOLL RESTRICTION TIERS

Minimize exposure to fraudulent activity and unnecessary costs from international toll fraud.

CUSTOMER PROTECTION ALARMS

Select from a variety of threshold alarms to help prevent problems and unnecessary costs.

PRIVATELY OWNED & FINANCIALLY SOUND

In a telecom world full of disruption, we build relationships for the long term.
